# Salary Rankings

2007-2008

---

Missouri NEA prepares the Salary Rankings report annually. This report is compiled using the 2007-2008 Department of Elementary and Secondary Education core data. Core data is a compilation of the information entered six times per year by each of the 524 Missouri school districts. For more information about core data, visit the Missouri Department of Elementary and Secondary Education's Web site at <http://dese.mo.gov/divimprove/coredata/index.html>.

The following sections are included in this report.

*Section 1* – Alphabetic listing of all the school districts detailing the superintendent's salary as well as the average salary of the teachers in that district. Several districts did not have data listed for the superintendent position, thus the record appears blank. A few districts have more than one superintendent.

*Section 2* – Alphabetic listing of school districts according to district size or region detailing the average administrators' salary.

*Section 3* – Alphabetic listing of school districts according to district size or region detailing the average teachers' salary.

An average for each group is posted at the end of each sub-section. Below are the state averages of public education certified staff.
